

To: Judge Kent A. Jordan

Daniel Green C.A.# 04-027 KAT and 05-549-KAT
I am writing to you Judge Jordan about a letter I sent to the clerk, a letter dated 9/15/05 asking the clerk if he could do something about the law library.

I ask for seven 285 forms. The law library said I need to prove that I have proof before he gives them. So, I also sent this letter with the letter I gave to the clerk asking if he could help me and tell the law library here at DCC I do not have to show reasons for a request as well in the letter about the mail they never sent out which I wrote about before, the clerk sent a letter telling me that service has not been issued, that's not what I ask, as well on my Docket there are things worded different than the way I sent them in and given a mis understanding of what I am wanting. This is not the first time I wrote to the clerk about trying to get help, and send me a letter about the opposet of what I am trying to get done and that I would like for you to go over all my motion and letter that I sent in and help or answer what I have been trying to get done. Thank you.

P.S. I feel this letter is directed to you and has nothing to do with counsel or ~~that~~ I have to send them copies because this is between me and you.

Respectfully

Daniel Green
